

# Feng Zhao

Director at FTI Consulting

---

## *Summary*

Feng is a Director at FTI's Economics and Financial Consulting Practice, based in the Copenhagen Office. Prior to joining FTI, Feng was an Associate Director in Navigant's Energy Practice and a Research Director at the research unit of Navigant Consulting. Before that, Feng was a critical member of BTM Consult, a leading wind energy consultancy that was acquired by Navigant in the end of 2010.

Feng has strong market analytical capabilities and has co-authored the *World Market Update* and the *Supply Chain Assessment* for the international wind power market since 2007. He has recently served as the project manager for the *World Market Update*, the independent "bible" for the wind energy industry, *Offshore Report*, *Latin America Wind Market Assessment* and *Emerging Wind Markets Assessment*.

Feng has closely followed the wind industry during the past 8 years and has a deep understanding of all major wind power markets. By managing a list of cross border research and projects, he has built a global network covering business and technology and has worked with clients throughout the entire wind energy value chain including: wind farm owner-operators, developers, wind turbine vendors, components and material suppliers, investors, industry associations and government agencies.

Feng is a Chinese national and is greatly familiar with the Chinese wind market where he was behind several major IPOs recently launched by Chinese utilities and wind turbine vendors in Hong Kong and New York Stock Exchange.
