

# Jimmy Thyregod Kristensen

Managing Director at NT Offshore ApS

---

## *Summary*

As Managing Director of NT Offshore ApS, Jimmy is responsible for 3 departments: Vessel Management, Project Department, and Documentation Department.

The Vessel Management department is in charge of running management of vessels in the Offshore market, both Oil & Gas, and Wind Energy.

The Project Department delivers all parts of a project in the industry – from idea to delivery of vessel, moving of rigs and operational control.

The Documentation Department is responsible for preparing all kinds of systems and manuals for bridging operations, running vessels, SOPEP plans, DP manuals, etc.

---
